

Speed Hump - Plastic - Middle Section

Product Description

Our 100 Tonne speed hump is made from a high strength Plastic which are designed to sit flush together for easy bolt down installation. Each piece is 250mm in length, therefore 4 pieces making 1 meter in both yellow and black. Perfect for areas such as shopping centres, schools, car parks and other busy areas to slow traffic.

Your order will be supplied in alternating yellow and black sections so no need to specify colours, just add the required quantity to your cart. Keep in mind that each section is 250mm long & speed hump end pieces can be purchased separately to neatly round off the edges.
