Premium Wheel Stop - 5 Year Warranty

Introducing the newest and most durable wheel stop available today. The Premium Wheel Stop is made from 100% recycled material, which is stronger than any other currently on the market.

These wheel stops will not crack, fade or disintegrate like many others and our yellow chevrons won't fall off even during various weather conditions. Our wheel stops have been made through a system called vulcanisation which have a 10 times higher tensile strength than most wheel stops.

SPECIFICATIONS

INFORMATION	
Material	100% Recycled Rubber
Warranty	5 years
Weight	13kg
Height	100mm
